Task1

A screenshot of a C++ IDE (likely Visual Studio Code) with a dark theme. The interface shows a 'TERMINAL' tab with two active sessions. The left session, titled '(skn1fer@SKN1FER) - [~/Desktop/cnet/lab2/task1]', shows the execution of a server program. It outputs '123' and 'Total Score :'. The right session, titled 'zsh - task1', shows the execution of a client program. It prompts the user to 'Answer only option Number' and then asks three questions: 'Whats capital of Pakistan?' (options: 1. Islamabad, 2. Karachi, 3. Lahore), 'Whats the color of sky?' (options: 1. Red, 2. Blue, 3. Green), and 'How many color does rainbow have?' (options: 1. 5, 2. 6, 3. 7). The client outputs '123' twice. The status bar at the bottom indicates 'Ln 38, Col 23', 'Tab Size: 4', 'UTF-8', and 'LF'.

Task3
